

RECTANGULAR CONNECTORS

EDAC

Rectangular Connectors

EDAC Rack & Panel connectors offer a high reliability connection, ideal where a large number of wires are interconnected to a panel. Available in seven body sizes ranging from 14 to 120 contact positions. The hermaphroditic contact design provides a gas tight connection with superior shock and vibration resistance. Ease of mating is facilitated with the use of an actuating screw and lock nut.

Features

- Industry standard connector with highly dependable contacts
- Hermaphroditic contact design for no-fail interconnections
- Gold over nickel plating for wire hole, PCB, wire-wrap and crimp contacts
- In sizes of 14 to 120 positions, with actuating screw or locknut and polarizing hardware
- Plastic and metal covers with cable clamps for strain relief
- Tools available for contact installation, removal, crimping and polarization
